## INTRODUCTION

This Directory of EPA/State Contacts by Specialty catalogues personnel involved in the management of hazardous waste under the Comprehensive Emergency Response, Compensation, and Liability Act of 1980 (CERCLA). The purpose of this directory is to facilitate communication within EPA, and between EPA and State offices on issues related to State participation in the Superfund program.

This directory presents information on personnel who provide technical, legal, administrative, and financial expertise in support of CERCLA activities. These individuals are located in EPA Headquarters and Regional offices, State environmental protection programs, and pertinent State associations. The names and addresses are current as of Fall 1989.

The information is organized by specialty and responsibilities of each contact, as opposed to geographic location. Each category is subdivided into Headquarters, Regional, and State personnel, where appropriate. An additional section for State associations occurs at the end of the directory. For easy reference, the directory also includes an index that lists individuals alphabetically and the page numbers on which they can be found.

Information is provided for each person in the following order: name, title, office, address, room number, mail code, and both commercial and FTS telephone numbers, if applicable. An individual's name may be listed more than once if he currently fills more than one position. If a position is vacant, that is noted, and an address is still provided. A list of general telephone numbers and addresses is also provided for Headquarters and Regional offices to facilitate contacting people who are not in this directory.

Additional copies of the directory will be available from the Superfund Docket and Information Center (SDIC) in hard copies or on PC-compatible disks. Copies can be requested from the Center for Environmental Research Information (CERI), Office of Research and Development Publications, 26 West Martin Luther King Drive, Cincinnati, OH 45268 or by calling (513) 569-7562. Updates to the directory will occur on a regular basis and will also be available from CERI.

The State and Local Coordination Branch, within the Office of Emergency and Remedial Response (OERR), prepared this directory with assistance from the Association of State and Territorial Solid Waste Management Officials and Booz, Allen & Hamilton Inc.
